## VISION

To develop highly skilled human resources with the ability to adapt an intellectually and technologically changing environment with the participative efforts of the management, staff, students and parents.

## MISSION

To emerge as an excellence in science and technology through creative, innovative & research oriented developmental practices to produce world class highly talented and competent professionals.

## CHAIRMAN: Sri. M.Prabhakar Reddy

A nation's prosperity primarily depends on education, which creates wealth and well being. Technology is the key to safety, security, progress and prosperity. To build a safe, secure and prosperous India, we need to make technical education accessible and affordable with no distinction in caste, creed or color. Since independence, it has taken nearly more than six decades to emerge as a participant in global competition and an economic entity. The global competition is heating up, therefore, the educational philosophy at SVTM is found on the belief that our students should not only be professionals in their chosen careers but also all round personalities - knowledgeable and cultivated individuals with high personal, professional and ethical standards. Discipline, dedication, duty, dignity and determination are ingredients to all our learning programmes.

## ABOUT SVTM

SVTM is named after Bharat Ratna Sir Mokshagundam Vishveshwaraiah synonymous with excellence. The Institution was established in 2006 in Madanapalle, a pleasant town, known for educational and cultural center from the days of Dr. Annie Besant, the great theosophist.
